Recognized for industry impact

Honored as one of **15** healthcare companies changing the industry

Named one of "The World's **50** Most Innovative Companies"

Reducing generic drug shortages

BRINGING true competition to the generic drug market, focusing on quality, value, affordability and availability.

ENSURING stable and predictable supplies of quality, essential generic drugs to U.S. hospital members and long-term volume certainty to manufacturers.

MITIGATING shortages by meeting or exceeding hospital order commitments and targeting consistent six-month safety stock.
